**Summer Fair** - this Saturday (29th) from 1 to 4pm!
Final preparations are being made for our fair on Saturday. Make sure you read the programme (with map on reverse) which is also being sent home and texted. Thanks to all our volunteer parents and carers who have been giving up their time to make it happen. If you haven’t offered to help yet, simply pick up an ‘I’m here to help!’ sticker at the entrance when you arrive on the day. School councillors are encouraging lots of older children to help too and have decided that, when they do, then they can wear an ‘I’m a Fair helper!’ sticker on Saturday.

- Remember to bring family, friends and neighbours
- Bring plenty of loose change
- Buy raffle tickets for exciting prizes before or on the day
- All children need to be accompanied by a responsible adult.

***STOP PRESS!***
We have just received a letter from the Mayor of London inviting us to be one of only 34 schools across the whole of London that are ‘eligible to be a School for Success for the third year in a row’! (More details in next week’s newsletter.)

**Key Stage 1 Moderation**
We are delighted that our Year 2 team received extremely positive feedback from external moderators last Friday. They were particularly impressed with our strong relationships and how staff “know the children very well.”

**Autumn Term Before and After School Activities**
Early next week the extensive list of before and after school activities for the autumn term is being sent home with an application form which will need to be returned to the office by 9.30am on the following Monday (8th July).

**Transforming the Wandsworth Road**
Year 5s have begun to plant up the flower bed on the corner of St Rule Street and the Wandsworth Road. They have got a lot more to do and are asking for your help to keep it looking great! Let family, friends and neighbours know how hard the children are working and encourage everyone to keep it free of litter (please use playground bins for any rubbish you pick up on the way into school).

**Teepee Making**
Years 3 and 4 have been constructing stone age homes in the playground with the help of parents! They used 5 (yes, five) metre-long poles, an enormous piece of canvas and loads of problem-solving skills. Many thanks again to the parents.
