Welcoming New Families

As in previous years, parents are invited to welcome new parents and carers into our community at our Welcome Meetings on Monday, Tuesday and Friday next week. Following parent feedback, this will be an opportunity to more formally meet key members of staff, learn about how we communicate with each other and hear about ways to be involved in our community. Come to our lower hall.

Year Group Curriculum Meetings next week

Year 3 and Year 6 will take place on Monday (7th), Year 2 and Year 5 on Tuesday (8th), whilst Year 1 and Year 4 will be on Thursday (10th). Come straight to classrooms at 3.20pm and children are welcome.

Parent Partnership Meetings for Years 1, 2, 3, 4, 5 & 6

Look out for details of how to register for a Parent Partnership Meeting with your child's classteacher being sent via text or email. These are important meetings for you to talk specifically about your child and their learning this academic year.

Calendar Overview updates

We are aware that the versions of this half term's calendar overviews sent home in July would need updating at the beginning of term due to the length of the summer break. Look out for final versions being shared in the next few days.

Heathbrook Babies and Toddlers

Our very popular Babies and Toddlers group is starting again on Fridays from next week. It takes place from 9 to 10am in our Hub (by the car park entrance).

Our New Playground 'Underground Reservoir'

Thank you for being flexible at drop off and pick up due to the playground works being completed this week. Have a look at some [photos of the work](#) that were shared with Year 3, 4, 5 & 6 children in assemblies today; we are looking forward to welcoming visitors to explain more about its impact and answer questions! The work is part of Thames Water's [surface water management programme](#) to improve long-term resilience to both drought and flood risk as climate variability increases. We are delighted to add this to our portfolio of sustainable onsite resources to support the children's learning around '[sharing our planet](#)'.

Be the Best you can Be!

Our [Be the Best you can Be!](#) learning focus for this half term is Readiness. Class activities and assemblies will explore children's motivation to learn and belief that we can achieve goals. Support children at home by talking about this.
